SUMMARY

Computer Engineering student focused on cloud computing and DevOps, pursuing AWS Cloud Practitioner and Solutions Architect Associate certifications. Hands-on experience building and deploying full-stack and cloud-integrated projects, including AI-powered tools using the Gemini and Claude APIs, CI/CD pipelines with GitHub Actions, and AWS-hosted static web applications. 750+ Google Cloud Arcade labs completed. Strong foundation in problem-solving, self-directed learning, and delivering working projects independently.

SKILLS

- Cloud & DevOps: AWS Lambda, Amazon RDS, AWS CloudFormation, Docker, Kubernetes (EKS), Terraform, GitHub Actions (CI/CD), Prometheus, Grafana, Google Cloud Platform
- Programming & Web: HTML, CSS, JavaScript, Node.js, Flask, MySQL
- Tools & Platforms: Git, GitHub, Android (Gradle build automation)
- AI Integration: Gemini API, Claude API (AI-assisted features, invoice/document scanning)
- Other: Localstorage/offline-first app design, technical documentation

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate (Self-Paced)
- AWS Certified Cloud Practitioner (Self-Paced)
- 750+ Google Cloud Arcade Labs completed

EXPERIENCE

Campus Mantri — GeeksforGeeks

June 2026 – Present

- Represent GeeksforGeeks on campus, driving student engagement with coding and career-development initiatives in Solapur.

PROJECTS

Portfolio Website — GitHub Actions

- Built and deployed a personal portfolio site with a GitHub Actions CI/CD pipeline for automated deployment.

3-Tier CI/CD DevOps Pipeline — Docker, Kubernetes (EKS), Terraform, GitHub Actions, Prometheus, Grafana

- Designed and deployed a 3-tier application on Kubernetes (EKS), with all infrastructure provisioned as code using Terraform.
- Built a full GitHub Actions CI/CD pipeline to containerize services with Docker and automate build, test, and deployment to the cluster.
- Set up Prometheus and Grafana for cluster and application monitoring, and demonstrated failure recovery scenarios to validate infrastructure resilience.
- Focused entirely on infrastructure maturity over application features, using a minimal demo app purely as a vehicle for the DevOps pipeline.

EDUCATION

Brahamdev Dada Mane Institute of Technology — B.Tech, Computer Engineering

Sep 2025 – Jun 2028

SPM Polytechnic Kumathe, Solapur — Diploma, Computer Science

Aug 2022 – Jun 2025

Shri Markandeya High School — SSC

Jun 2021 – Apr 2022
